Daily food, symptom & activity diary

• Information you must bring to your appointment

- Recent blood test results.
- Full list of current medication
- Results of investigations (you may need to ask your GP or Consultant for these)

Pre-appointment tasks to be completed

We encourage you to ensure that these are forwarded to us least 5 working days before your appointment so that we can make sure that you get the most benefit from it. Ideally, send them by email (allow extra time for delivery if you are sending hard copies by post)

a) Current symptom severity scores

Please indicate the severity of your current symptoms in the table provided

b) 4 Day daily food and activity diary

Food Intake: Record what you eat with approximate portion description such as tablespoons of pasta, how many potatoes & what size (e.g. egg size, fist size), meat in slices or number of chops or look at the packet you cooked for the weight Drinks: Measure the size of the mugs or glasses you most commonly drink from so that you can record closely what you consume

Activity: record what you are/have been doing throughout the day whether you were sitting, on the go, exercising (include duration & intensity) or relaxing
